

Editorial Note

Dear Readers, Contributors, and Colleagues,

It is our pleasure to present Volume 30, Issue 2 of the Burapha Science Journal, covering the period from May to August 2025. On behalf of the editorial board, I extend my sincere gratitude to all authors, reviewers, and contributors whose continued support has made this issue possible.

This volume showcases a wide range of scientific research aligned with the journal's multidisciplinary scope. We are pleased to feature 20 research articles, with an impressive 70% of submissions originating from external institutions, reflecting the growing recognition of our journal in the broader scientific community.

This issue also reflects an encouraging trend in international collaboration, with contributions from authors across diverse institutions and countries. Such collaborations enrich scientific dialogue and foster the exchange of knowledge beyond geographical boundaries.

Disciplinary distribution for this issue is led by Mathematics and Statistics with 5 articles (25%), followed by Biological Sciences including Biology, Microbiology, and Biochemistry with 4 articles (20%). Food Science, Chemistry, and Environmental Science each contribute 3 articles (15%), while Marine Science is represented by 2 articles (10%).

We remain committed to enhancing the quality, visibility, and international presence of the Burapha Science Journal. As we move forward, we continue to welcome submissions that embrace interdisciplinary approaches, promote global collaboration, and address real-world challenges through scientific innovation.

We hope this issue inspires meaningful research, partnerships, and progress in your respective fields. Thank you once again for your invaluable contributions and continued support.

With best regards,

Sutin Kingtong, Ph.D.

Editor-in-Chief
